

# Mathematik / Grundrechenarten

Matheaufgaben für die 2. Klasse: Addition bis 50

## Zwischenschritt: Summand auf vollen Zehner auffüllen

1)

$$16 + 16 = \overset{\textcircled{20}}{16 + 4} + 12 = 32$$

$$24 + 19 = \overset{\textcircled{30}}{24 + 6} + \underline{\quad} = \underline{\quad}$$

$$19 + 17 = \overset{\textcircled{\quad}}{\quad + \quad} + \underline{\quad} = \underline{\quad}$$

$$16 + 15 = \overset{\textcircled{\quad}}{\quad + \quad} + \underline{\quad} = \underline{\quad}$$

$$29 + 16 = \overset{\textcircled{\quad}}{\quad + \quad} + \underline{\quad} = \underline{\quad}$$

$$27 + 14 = \overset{\textcircled{\quad}}{\quad + \quad} + \underline{\quad} = \underline{\quad}$$

$$18 + 13 = \overset{\textcircled{\quad}}{\quad + \quad} + \underline{\quad} = \underline{\quad}$$

$$29 + 17 = \overset{\textcircled{\quad}}{\quad + \quad} + \underline{\quad} = \underline{\quad}$$

2)

$$29 + 15 = \overset{\textcircled{\quad}}{\quad + \quad} + \underline{\quad} = \underline{\quad}$$

$$25 + 16 = \overset{\textcircled{\quad}}{\quad + \quad} + \underline{\quad} = \underline{\quad}$$

$$28 + 17 = \overset{\textcircled{\quad}}{\quad + \quad} + \underline{\quad} = \underline{\quad}$$

$$19 + 14 = \overset{\textcircled{\quad}}{\quad + \quad} + \underline{\quad} = \underline{\quad}$$

$$28 + 19 = \overset{\textcircled{\quad}}{\quad + \quad} + \underline{\quad} = \underline{\quad}$$

$$27 + 19 = \overset{\textcircled{\quad}}{\quad + \quad} + \underline{\quad} = \underline{\quad}$$

$$28 + 18 = \overset{\textcircled{\quad}}{\quad + \quad} + \underline{\quad} = \underline{\quad}$$

$$27 + 18 = \overset{\textcircled{\quad}}{\quad + \quad} + \underline{\quad} = \underline{\quad}$$

# Mathematik / Grundrechenarten

Matheaufgaben für die 2. Klasse: Addition bis 50

## Lösungen

1)

$$16 + 16 = 16 + 4 + 12 = 32$$

$$24 + 19 = 24 + 6 + 13 = 43$$

$$19 + 17 = 19 + 1 + 16 = 36$$

$$16 + 15 = 16 + 4 + 11 = 31$$

$$29 + 16 = 29 + 1 + 15 = 45$$

$$27 + 14 = 27 + 3 + 11 = 41$$

$$18 + 13 = 18 + 2 + 11 = 31$$

$$29 + 17 = 29 + 1 + 16 = 46$$

2)

$$29 + 15 = 29 + 1 + 14 = 44$$

$$25 + 16 = 25 + 5 + 11 = 41$$

$$28 + 17 = 28 + 2 + 15 = 45$$

$$19 + 14 = 19 + 1 + 13 = 33$$

$$28 + 19 = 28 + 2 + 17 = 47$$

$$27 + 19 = 27 + 3 + 16 = 46$$

$$28 + 18 = 28 + 2 + 16 = 46$$

$$27 + 18 = 27 + 3 + 15 = 45$$
